MOD PACK

EVOLVE YOUR GAMEPLAY

The **Strike Pack Eliminator Mod Pack** adapter is a striking no compromise evolution of current paddle systems. Buttons, unlike paddles, offer much faster response times and coupled with a wired connection grant the gamer a **zero lag** environment. The design of the **Strike Pack Eliminator Mod Pack** gives you the ability to stop playing claw due to superior button placement not available on any other adapter or controller. Finally, our **instant mapping system** (no software or magnetic keys needed) allows you to fine tune your controller setup while in-game and not through a complicated menu or software solution.

ERGONOMIC DESIGN

BUTTON HEIGHT AND PLACEMENT REDUCE STRAIN AND ENHANCE COMFORT AND FEEL

TAILORED TO YOUR GAMING NEEDS

The **Strike Pack Eliminator Mod Pack** adapter was created with ergonomics in mind. Everything from the height and placement of buttons to the shape and texture of the grip were engineered with comfort in mind. You no longer need to compromise between functionality and extended gaming sessions...with the **Strike Pack Eliminator Mod Pack** you get both in one sleek package.
